A signed copy of this amendment must be submitted with your Solicitation Response.

Solicitation HR961143 is amended as follows:

1. Amend Page Four (4), Section Two (2), What is the Funding Source for this Grant? to add the following sentence to the end of Paragraph One (1); Grantees are required to provide an eighty-two percent (82%) match to the requested funds.
2. Amend Page Eleven (11) Provision D, Strategies/Approaches, Item Eleven (11) to add the following definitions as subsections a – d:
 - a) **Population Based Services** - Preventive interventions and personal health services, developed and available for the entire population of the State rather than for individuals in a one-on-one situation. Disease prevention, health promotion, and statewide outreach are major components. Common among these services are newborn screening, lead screening, immunization, Sudden Infant Death Syndrome counseling, oral health, injury prevention, nutrition and outreach/public education.
 - b) **Infrastructure Building Services** - The services that are directed at improving and maintaining the health status of the population by providing support for development and maintenance of health services standards/guidelines, training, data and planning systems. Examples include needs assessment, evaluation, planning, policy development, coordination, quality assurance, standards development, monitoring, training, applied research, information systems and systems of care.
 - c) **Enabling Services** - Services that allow or provide for access to and the derivation of benefits from, the array of basic medical care services and include such things as transportation, translation services, outreach, respite care, health education, family support services, purchase of insurance, case management, coordination with Medicaid, WIC and education. These services are especially required for the low income, disadvantaged, geographically or culturally isolated, and those with special and complicated health needs. For many of these individuals, the enabling services are essential – for without them access is not possible.
 - d) **Direct Health Services** - Those services generally delivered one-on-one between a health professional and a patient in an office, clinic or emergency room which may include primary care physicians, registered dietitians, public health or visiting nurses, nurses certified for obstetric and pediatric primary care, medical social workers, nutritionists, dentists, sub-specialty physicians who serve children with special health care needs, audiologists, occupational therapists, physical therapists, speech and language therapists and specialty registered dietitians. Basic services include what most consider ordinary medical care, inpatient and outpatient medical services, allied health services, drugs, laboratory testing, x-ray services, dental care, and pharmaceutical products and services.

Vendor hereby acknowledges receipt and understanding of above amendment

---	---	--

3. Attachment Seven (7), Page Thirty-Seven (37) of the original solicitation is replaced in its entirety with Attachment Seven (7) of Amendment One (1).

4. Amend Page Twenty-Three (23), Scope of Work, to add the following Item 6, Requirements.

6. Requirements:

In accordance with A.R.S. § 41-1758.03, Fingerprint clearance cards; issuance; immunity, the Grantee shall have all existing employees complete Attachment Nine (9), Criminal History Affidavit and retain the document in the employee's personnel file where it is accessible to ADHS personnel upon site visits. The Grantee is further required to have any potential employees complete the Affidavit prior to employment and application for a fingerprint card.

5. Attachment Nine (9), Criminal History Affidavit, is added to the solicitation and posted to the ADHS website as part of this Amendment One (1).

All other provisions of the solicitation shall remain in their entirety.
